

Fabritec CHAMPION 5516

Products/Procedure

Fabritec CHAMPION 5516 Detergent is a premium solvent based (hydrocarbon) cationic detergent formulated for the new modern high flash odorless hydrocarbon solvents and modern dry to dry hydrocarbon units. However, **CHAMPION 5516** can also be used in the lower flash traditional petroleum solvents.

Fabritec CHAMPION 5516 contains special oleochemical surfactants and an enhanced softener/antistat. Thus, cleaning with **CHAMPION 5516** Detergent results in garments exhibiting clean whites, bright colors and an exceptional softness free of lint. **CHAMPION 5516** Detergent provides outstanding water soluble soil removal.

Fabritec CHAMPION 5516 Detergent contains a biocide to help prevent the growth of odor causing microbes. **CHAMPION 5516** Detergent also contains a fresh mountain spring fragrance to impart a fresh clean scent to the cleaned articles.

Fabritec CHAMPION 5516 Detergent is injected into every load at a rate of 1 ounce of detergent for every 5 pounds of articles processed in the load. For example, for a 30-pound load 5 ounces of **CHAMPION 5516** would be injected into the drycleaning unit.

Note: Safety Data Sheet (SDS) available on request. Call 1-800-543-0406.

The logo for Fabritec Brand Detergent features the word "Fabritec" in a large, stylized, light blue font with a white outline and a registered trademark symbol (®) to the upper right. Below it, the words "Brand Detergent" are written in a smaller, italicized, light blue font. The entire logo is set against a light blue, oval-shaped background.
