

Synergy 5934

Products/Procedures

FABRITEC 5934 SYNERGY is a combination laundry sour and rust-remover. The product prevents rust stains, yellow spots and graying by removing alkaline soap residue and by sequestering iron and other hard water minerals.

SYNERGY is added during the final rinse. The SYNERGY combination sour is used at a recommended rate of 2-4 oz. per 50 pounds of articles. **Warning: DO NOT OVERUSE SOUR.** Monitor the exact amount of sour used by measuring the fabric pH. The ideal pH is 6.5-7.0.

PHYSICAL CHARACTERISTICS:

- APPEARANCE: Mobile liquid with a light green tint.
- ODOR: Acidic
- Non flammable
- Biodegradable
- Phosphorous content 4.7 %
- pH in 1% solution: 2.0-2.5.

Note: Safety Data Sheet (SDS) available on request. Call 1-800-543-0406.

The logo for Fabritec Brand Detergent features the word "Fabritec" in a large, stylized, light blue font with a white outline and a registered trademark symbol (®) to the right. Below it, the words "Brand Detergent" are written in a smaller, light blue, sans-serif font. The entire logo is set against a light blue, oval-shaped background.
