

Fabritec 5943 BOOST

Products/Procedures

Fabritec 5943 BOOST Degreasing/Emulsifying Aid is designed to lift tough ground in soil and oily stains from washable garments. BOOST is particularly effective against shirt cuff and collar stains. BOOST is safe on most fabrics and dyes and will not set stains. It is compatible with all detergent systems.

USE DIRECTIONS:

Apply full strength to the stained area via sprayer or bottle, brush if necessary. For best results, allow BOOST to penetrate and loosen the stain or soil for at least 10 minutes before wetcleaning or laundering the article.
